

Jenny Companion

VP, Eastern Operations

Jenny Companion is a restaurant operations expert with more than 20 years in the hospitality industry. To date, she's opened over 25 restaurants with The Fifteen Group Inc.

Her expertise is heavily rooted in operations and curating guest experience through staff training. Beginning her hospitality career with an established restaurant brand, and working directly interacting and managing the guest experience, showed her how important conducting proper staffing procedures and training were combined with the proper operations management.

Her love for restaurants and food revolves around creating the perfect guest experience. And she's passionate about helping create new hospitality concepts, working with clients to bring their best ideas to life; dreams to reality. She has extensive experience in, and enjoys, leading the project development and the construction portion of client's projects.

"A restaurant is only as good as it's people. Investing in recruitment and training is critical to ensure operations standards are withheld, sales and profit targets are met, turnover rates are lowered, and the guest has a positive experience." — Jenny Companion
